

JOAQUIN REYES DURANGO
Secret Security Clearance

SUMMARY

U.S. Navy Veteran (20 Years) and IT Professional with a career-long foundation in Oracle database management and application support; and expert in **Oracle SQL** and **PL/SQL**. Currently bridging 20+ years of federal experience with modern cybersecurity and cloud data architectures through advanced self-study and upcoming graduate-level engineering coursework.

PROFESSIONAL EXPERIENCE

SQL Developer | Herdt Consulting, Inc. (Chelsea, AL) | 12/2024 – 04/2025

- Translated legacy OBIEE reporting logic into efficient SQL scripts for modern application integration.
- Conducted database analysis to map structures and optimize query performance for federal clients.

IT Analyst | Client Solution Architects (Virginia Beach, VA) | 03/2024 – 11/2024

- Provided technical support for Oracle-based reporting tools and assisted in converting OBIEE reports to SQL scripts.
- Facilitated application infrastructure transitions by ensuring data accuracy during system migrations.

Application Support & Data Manager | Puget Sound Naval Shipyard & IMF | 05/2010 – 09/2022

- Managed 5 mission-critical applications, ensuring strict compliance with DoD information resource standards.
- Maintained security and integrity for sensitive (FOUO/U-NNPI) data environments.
- Resolved complex system issues and implemented technical fixes/upgrades to minimize downtime.
- Directed user account management (IAM) and provided technical training to shipyard personnel.

Information Technology Specialist / Junior DBA | Pearl Harbor Naval Shipyard | 09/2000 – 05/2010

- Managed user accounts and resolved technical outages as a Junior Oracle DBA.
 - Developed custom reports and automated workflows using **Oracle APEX** and SQL.
 - Administered Unix/Linux environments, maintaining scripts for daily batch processing.
-

TECHNICAL TRANSITION & CONTINUOUS LEARNING

Developing competency through intensive self-study and academic preparation:

- **Cybersecurity Engineering:** Currently preparing for **MS in Cybersecurity Engineering (USD)** to transition from administration to security architecture.
 - **Modern Data Stack:** Active self-training in **Snowflake, Databricks, BigQuery, and dbt** to adapt legacy SQL skills to cloud-native environments.
 - **Enterprise Platforms:** Exploring **Palantir** and **Oracle OCI/OIC** for advanced data integration and analysis.
 - **Data Science:** Gaining foundational knowledge in **Oracle Machine Learning** and **Python**.
-

EDUCATION & CERTIFICATIONS

- **Certificate in Advanced Cybersecurity** | Champlain College | GPA: 3.86 (2022)
 - **B.S. in Computer Information Systems** | Hawaii Pacific University | *Summa Cum Laude*
 - **Oracle Certified Associate (OCA) 11g**
 - **CompTIA Network+ / Security+ Certificates**
 - **Advanced Training:** CySA+, CASP+, PenTest+, Green Belt (Six Sigma)
-

MILITARY SERVICE

Retired Veteran | United States Navy | 20 Years of Honorable Service
